Smart locker systems offer advantages for multiple industries, including:

QSR

Manufacturing

Hospitality

Entertainment

Banking

Retail

Higher Education

Cannabis

MODERNIZE YOUR OPERATION DOWN TO EVERY LAST DETAIL.

CONVENIENCE IS KEY

Cultivate customer loyalty with uncomplicated pickup.

ONE SYSTEM, BETTER BUSINESS

Seamlessly integrate your existing KDS or POS.

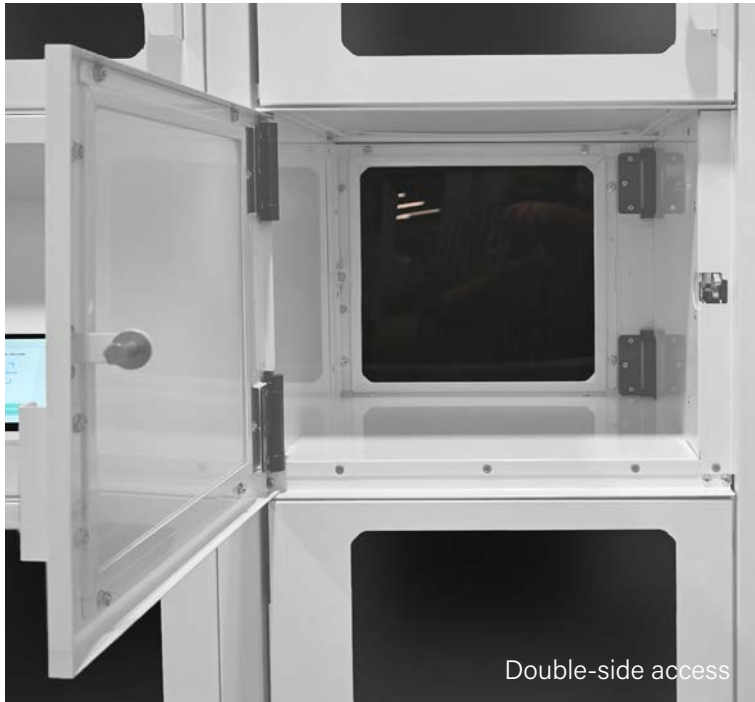

CUSTOMIZABLE TO YOU

Customize cubicles to your unique branding and colors.

PICKUP PROCESS AND FEATURES

PIN-PROTECTED DOUBLE-SIDED DOORS WITH LOCKS MAKE PICKUP EASY AND SECURE.

The Pickup Process

- 1 Customers order online, with a mobile device, or using a self-service kiosk.
- 2 The order is immediately communicated for processing.
- 3 When order is complete, a locker is assigned and automatically opened.
- 4 A central system sends texts and emails to alert customers that their order is ready.
- 5 Customer scans a unique PIN or QR code to open the corresponding locker door.

KEY FEATURES AND BENEFITS

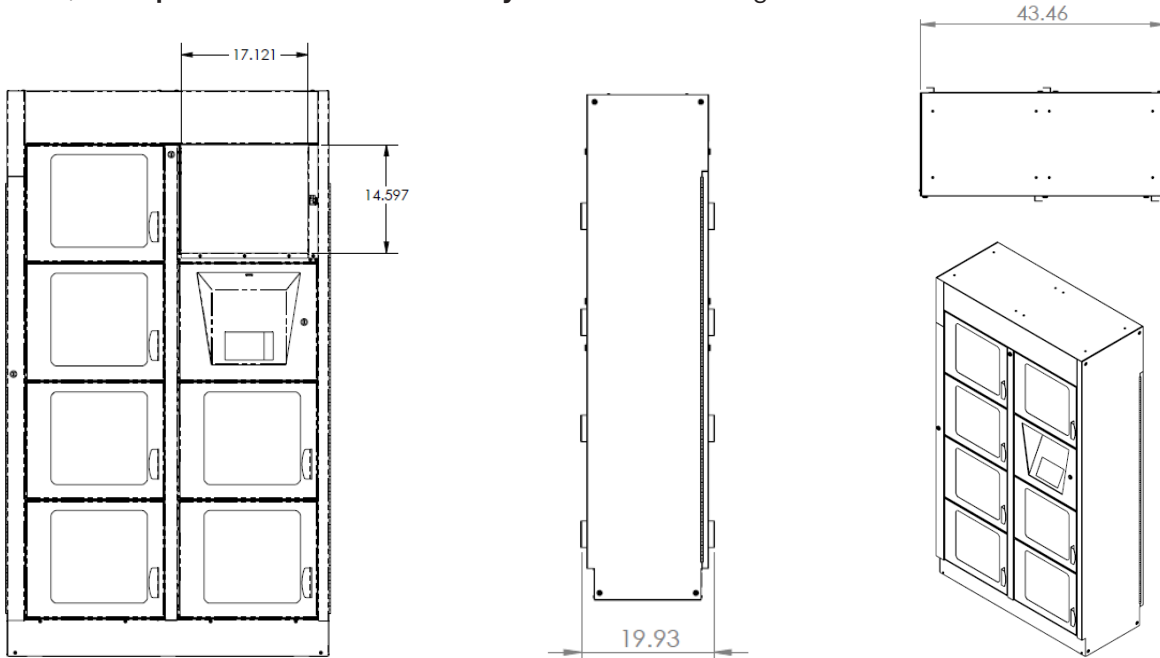

- » Integration-ready
- » Available open APIs and SDKs
- » Reduces touchpoints and promotes social distancing
- » Enhances customer experience
- » Improves labor efficiencies
- » Increases throughput

Locker LED lights and designs are customizable to your branding and color schemes
